ETERWELL™ YOUTH

A NEW LIFE FOR YOUR SKIN

Infinite well-ageing, powered by Senolytic Science.

dsm-firmenich

ETERWELL™ YOUTH

Infinite well-ageing – fully effective at every skin layer

Key benefits

- Holistic healthy ageing - acts at the cellular level*
- Helps revert skin damage induced by zombie cells
- Helps restore and boost collagen *ex vivo*
- Synergetic potential with other actives on Collagen *in vitro*
- Helps slow down the premature ageing of skin
- Reverses the skin appearance by 2 years after 2 weeks and 6 years after 3 months *in vivo*
- Reduces the appearance of fine lines and wrinkles *in vivo*
- Helps increase skin elasticity and skin smoothness *in vivo*
- Provides a rejuvenated skin appearance with vibrant healthy looking-skin

Patented application

dsm-firmenich

* *in vitro* and *ex vivo*

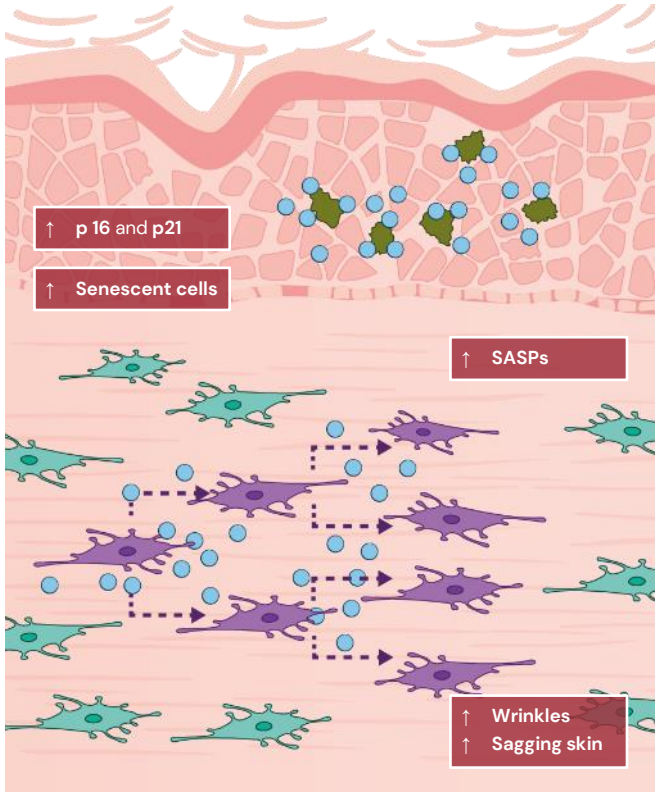
Mode of action

Senolytics is tackling the fundamental source of skin ageing, helping senescent (zombie) cells into apoptosis

Main senescence inducers:

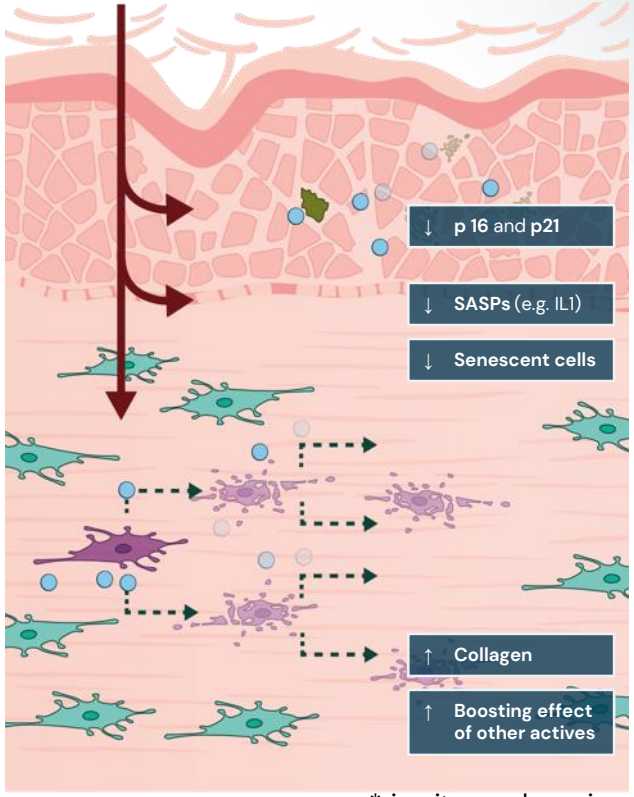
- Ageing
- Exposome: UV, pollution
- Oxidants
- Toxins

The senescent cells do not work anymore, release SAPs (Senescent-associated secretory phenotype) which are damaging the surrounding cells (snowball effect)

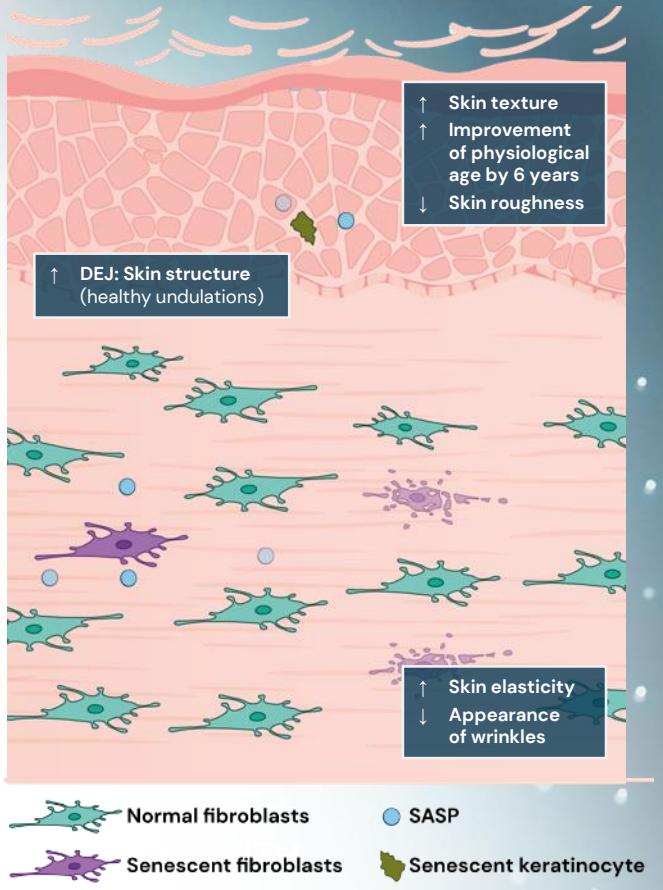


ETERWELL™ YOUTH

BIOLOGICAL ACTION*



SKIN BENEFITS



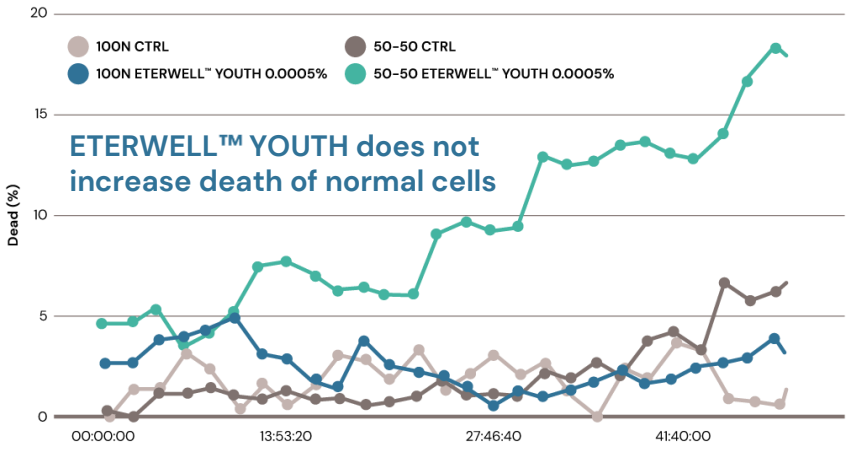
* *in vitro* and *ex vivo*

ETERWELL™ YOUTH acts in every skin layer at cellular level, clearing the senescent cells in excess (promoting apoptosis), and consequently drops the release of SASPs and increases collagen for a better skin texture and structure, improving the skin elasticity and appearance of wrinkles for healthy looking skin

dsm-firmenich

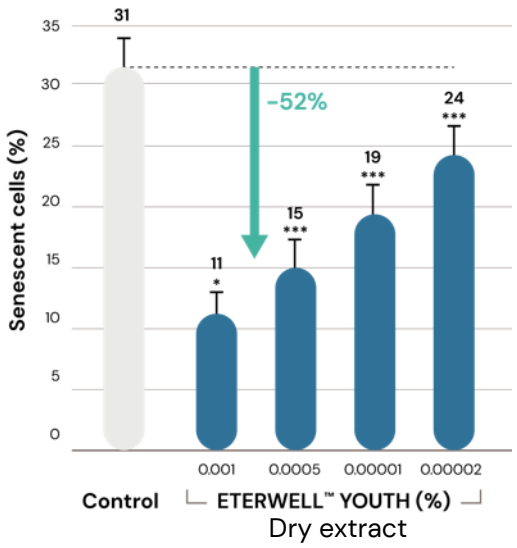
ETERWELL™ YOUTH: true senolytic active

A new life for your skin



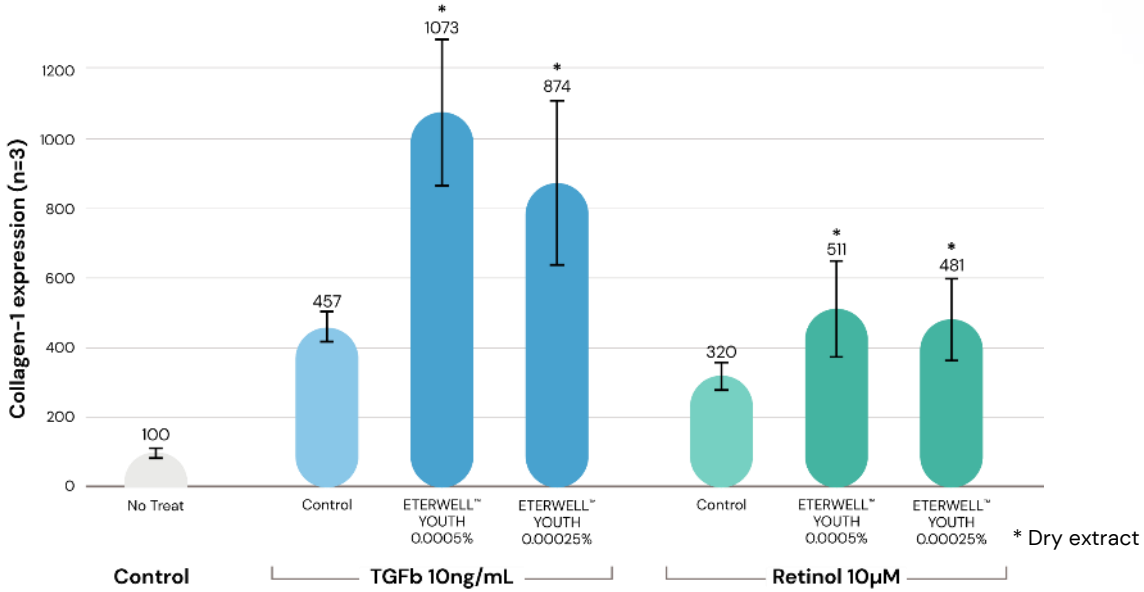
1. **Direct senolytic effect:**
   - **-52% senescent fibroblasts** with 0.0005%* ETERWELL™ YOUTH *in vitro*
   - **+200% increase of cell death** after only 48 hours (Realtime visualisation) *in vitro*
   - **-46% p21 expression** (senescence marker) at 0.024%* *ex vivo*
2. **Outstanding active boosting effect**
   - **+40% Collagen I** expression at 0.024%* *ex vivo*
   - **+54%** boosting activity of **Retinol** on Collagen 1 by ETERWELL™ YOUTH vs Retinol alone *in vitro*

Senolytic assay



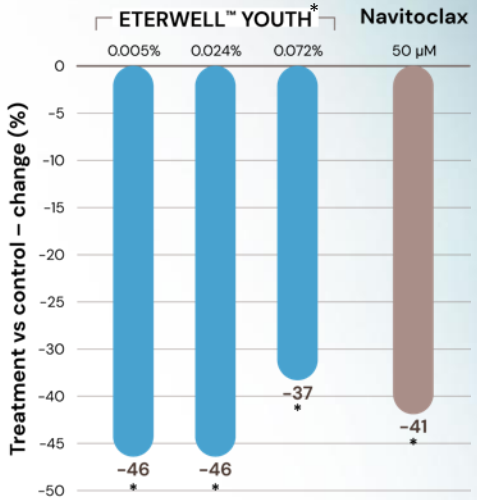
in vitro assays

Collagen-1 expression



* Dry extract

Senescence marker (p21) *ex vivo*

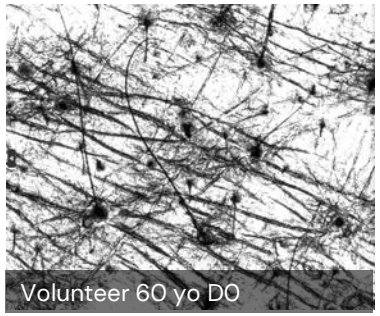


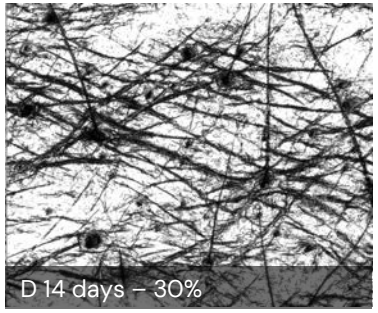
# p<0.1 ** p<0.01 ***p<0.005

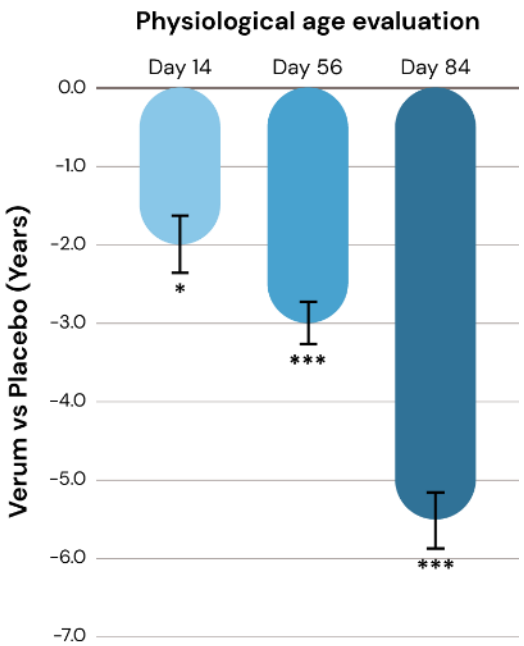
dsm-firmenich

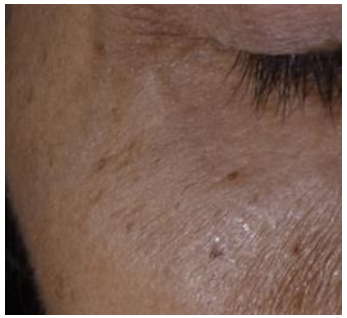
Holistic healthy ageing on 3 skin layers

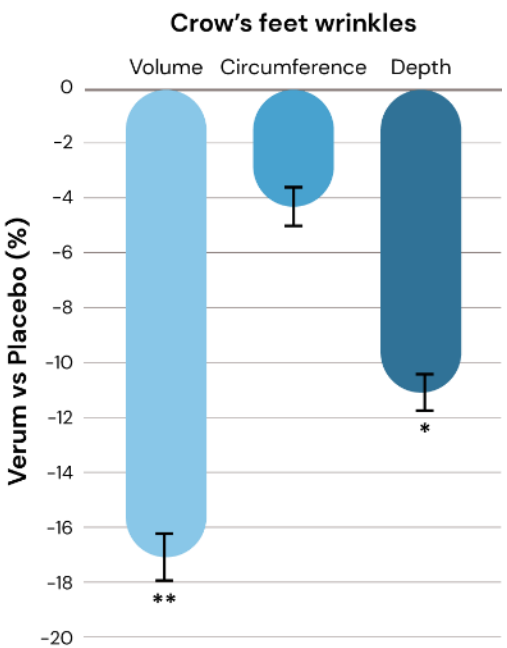
Significant results vs placebo *in vivo*











Holistic significant healthy ageing activities with 3% ETERWELL™ YOUTH vs placebo *in vivo*

- **+24% improvement of skin texture and smoothness after 2 weeks**,. Skin appearance **looks 6 years younger** after 3 months
- **+22% improvement of skin undulation** at the Dermal-Epidermal junction for a better skin structure after 3 months
- **+18% skin firmness**, elasticity and bouncing improvement after 2 months
- **–17% wrinkle volume reduction** on crow's feet after 3 months

Study design:

- Two groups of 25 volunteers each (female with mixed skin ethnicities), aged 45–60 yo, with an average at 55 yo.
- Twice daily application with 3% ETERWELL™ YOUTH

ETERWELL® YOUTH
ID card

INCI NAME: Epilobium Fleischeri Leaf/Stem Extract (and glycerin, water, citric acid)

SUSTAINABILITY: Organic cultivation, ethical and traceable sourcing, supporting alpine biodiversity with low impact on the environment (

TECHNOLOGY:
Gentle ethanolic extraction of dried rare alpine Willowherb plant following green chemistry principles
Standardization in Flavonoids (as myricitrin)
100% of natural origin – no preservative

TECHNICAL:
pH of use: 3.5- 5.5
Form: Liquid
Use level: 1–3%
Preservative: Free
Solubility: Water
Biodegradable: main components readily biodegradable

BENEFITS:
- Helps revert skin damage induced by zombie cells in excess*
- Boosts collagen*
- Appearance of wrinkles are significantly reduced**
- Restores the skin structure with improved skin elasticity and smoothness**
- Reverses the skin appearance (skin texture) by 2 years after 2 weeks only **
- Helps slow down the premature ageing of skin**
- Provides a rejuvenated skin appearance with vibrant healthy looking-skin**

REGISTRATION CERTIFICATION

** Ex vivo ** in vivo*

ETERWELL™ YOUTH
Key differentiators

2023, PODIUM TALK

33rd Congress ifscc
4-7 September 2023 BARCELONA | Rethinking Beauty Science

- True senolytic active: clearing senescence cells resulting to reduce SASPs and boost collagen, with *in vitro* and for the first time *ex-vivo* evidences (different from only reducing SASPs or acting on cell regeneration)
- Full set of ageing markers on the 3 skin layers (holistic healthy ageing) significantly improved *in vivo*: skin texture (physiological age) even after 2 weeks (looks 2 years younger), skin structure (DEJ), elasticity and wrinkles after 3 months
- The strongest reduction of zombie cells (-52%) at even low concentration (0.03% ETERWELL™ YOUTH*) *in vitro*
- Innovative assay on real-time apoptosis of senescent cells: nice visualization with holotomography microscope *in vitro*
- Outstanding synergetic effect of ETERWELL™ YOUTH with actives such as TGF-ß and Retinol: +45% *in vitro*.
- Holistic sustainability: organic, traceable, low environmental impact and fairtrade certified extract

Patented application

New unique data are expected by February on the specific senescence markers *in vivo*: to obtain a clear link between end-points and senolytics

*: concentration of commercial extract
